PRODUCT DESCRIPTION

Used Komatsu Crawler Excavator Digger: Unrivalled Specifications

The Used Komatsu Crawler Excavator Digger stands as a titan in the construction machinery realm. With an imposing operating weight of 43000 - 43420 KG, it offers unwavering stability for heavy - duty operations. Its expansive 2.1m³ bucket capacity, driven by a potent 259kw/1850rpm, promises remarkable digging prowess. Hailing from an unspecified location, and equipped with Komatsu - branded hydraulic cylinder, pump, and valve, along with a reliable engine as its core component, this excavator comes with comprehensive machinery test reports and video outgoing - inspections, attesting to its top - notch condition

Project	Komatsu Pc450
Working weight	43000 - 43420kg
Power	259/kw 1850/rpm
Bucket capacity	2.1m³
Maximum walking speed	5.5km/h
overall length	12040mm
overall width	3340mm
overall height	3660mm
Maximum digging radius	12005mm
Maximum digging depth	7790mm
Maximum digging height	10925mm
Maximum unloading height	7625mm
Maximum vertical excavation depth	6600mm
Maximum excavation radius at ground level	11800mm
Engine displacement	11.04L

Unmatched Performance in Large - Scale Endeavors

This second - hand Komatsu excavator showcases unmatched performance in large - scale projects. The highly efficient engine generates an incredible digging force, empowering it to effortlessly tackle the most arduous tasks. Whether it's excavating massive volumes of earth for a new housing development or breaking through

hard rock in a mining site, this excavator gets the job done with speed and precision, boosting project efficiency and productivity.

Durable and Resilient Construction

Built to endure the harshest conditions, the excavator features a durable and resilient construction. Its heavy - duty working device, fortified with high - quality materials, has withstood 3200 hours of operation while remaining in excellent condition. The reinforced steel structure and reliable Komatsu - branded components ensure long - term reliability, minimizing the risk of breakdowns and reducing maintenance costs over time.

Wide - Reaching Applications Across Sectors

In the construction engineering sector, it serves as an indispensable asset for housing and road construction, efficiently handling earth excavation, foundation work, and pipeline laying. For mining operations, its powerful driving force and wear - resistant design make it a go - to choice for rock excavation and ore loading, enhancing the overall efficiency of mining sites. In farmland and water conservancy projects, it plays a crucial role in river dredging and farmland reclamation, improving irrigation systems and promoting agricultural productivity. Additionally, it excels in landscaping, demolition, and industrial construction, making it a versatile choice for various large - scale endeavors.

Support and Services

- **Troubleshooting and diagnosis:** Handle any technical issues with professional diagnosis and solutions.
- **Repair and maintenance:** Provide regular and on - demand services to ensure your excavator runs smoothly.
- **Parts and component replacement:** Replace damaged or worn - out parts promptly with high - quality components.
- **Equipment inspections and evaluations:** Conduct thorough inspections to accurately assess the condition of your excavator.

FAQ

Q1: How do you ensure the performance of used excavators?

A:Our experienced team conducts thorough inspections and performance tests on each used excavator to ensure it meets our high - performance standards.

Q2: What's the delivery time?

A:Delivery is within 7-12 working days after receiving the advance payment. We prioritize quick delivery to support your project timelines.

Q3: Can the price be negotiated for large orders?

A:Yes,we are open to price negotiations for large orders.The more you order,the more favorable the pricing we can offer based on your specific requirements.
